GMO Statement

All baking powder produced by Clabber Girl Corporation (with the exception of Rumford, Non-GMO Clabber Girl, and Non-GMO Fleischmann's), contains cornstarch that has been produced from regular stock of corn. This corn may or may not contain varieties associated with genetic modification.

Rumford, Non-GMO Clabber Girl, and Non-GMO Fleischmann's baking powders contain cornstarch that is identity preserved and is Non-GMO Project Certified.

The other ingredients in the baking powders, monocalcium phosphate, sodium bicarbonate, sodium aluminum sulfate, and sodium acid pyrophosphate are produced by a chemical process using rock origins that have been mined from the ground and are free of genetically modified organisms.
